Subject: Cognos Overnight Update

Dear all

There was a technical issue with the Cognos Datamart refresh last night.

Please be aware that the Grants (GMS) and New Accounts Payable (AP) datamarts are currently updating.

We expect GMS to be completed by 10.45 and AP by midday.

The General Ledger updated overnight as normal.

We apologise for any inconvenience this may cause and will issue more information as it becomes available.

Issued by [Lesley Dent](#) – System Administrator.
